

*All Datapath Wires (white lines) are 32-bits wide unless specified otherwise

*All Control Signals (blue lines) are 1-bit wide, unless specified otherwise

*FLUSH_E is a 1-bit signal zeros IF/ID, ID/EX, BR_EN_E, and JUMP_E

Stages:

- Instruction Fetch (IF/I)
- Instruction Decode (ID/D)
- Execute (EX/E)
- Memory (MEM/M)
- Writeback (WB/W)
